Globus, the world's leading escorted tour company, is pleased to announce it has extended its sale on three of its most popular itineraries to Greece and Turkey.

The cruise portion of the 7-day *Aegean Legends* tour visits Crete, Patmos, Kusadasi and Mykonos over three days; while the *Jewels of the Aegean* features the same ports of call on its four day cruise, plus a stop in Rhodes. Or for an unforgettable vacation, the 11 day *Splendors of Greece and Turkey* adds a stop in exotic and mysterious Istanbul during its seven day cruise.

These Globus vacations feature cruising on the Louis Cruise Lines' MTS *Cristal* or *Aquamarine*, both spacious ships featuring at least eight decks, a swimming pool, casino, gift shop beauty salon, and, on board the *Cristal*, a spa and large duty-free shopping area.

These cruise-and-stay programs are incredibly popular – and with good reason. Imagine combining a relaxing cruise with some of the most beautiful scenery in the Mediterranean, plus a stay in historic Athens!
